

## **THE POST**

<b>College</b>	<b>University of Exeter Business School, Department of Economics</b>
<b>Post</b>	<b>Professor in Environmental Economics</b>
<b>College</b>	<b>University of Exeter Business School, Department of Economics</b>
<b>Reference no.</b>	<b>P01281</b>
<b>Reporting to</b>	Head of Economics

### **Job Description**

#### **Summary of post**

1. To fulfil research, teaching and administration duties as a Professor in Environmental Economics.
2. To extend the research profile of Environmental Economics and related areas. Empirical applications of interest include links between economics of the environment and natural capital, agriculture, development, health and resources as well as related economics valuation and behavioural analysis.
3. To contribute to extending the research and learning and teaching profile of the Department of Economics.
4. To contribute to the excellence of the College as a member of its academic team.

The post holder will be an innovative researcher with a strong and current record of research funding and international quality publications. Therefore the post holder will be a leading international figure with the ability to attract world-class academics to their research group.

### **Main duties**

#### **Research**

1. Support the development and implementation of the College research strategy.
2. Lead and co-ordinate research activity that contributes to enhancing the quality and quantity of Environmental Economics research at Exeter in an area related or complementary to existing research strengths with an emphasis on empirical research.
3. Manage research and other collaborative partnerships with other educational institutions or other bodies.
4. Lead bids for research, consultancy and other additional funds.
5. Write publications of the appropriate defined standard or disseminate research findings using media appropriate to the discipline.
6. Lead and develop internal and external networks to foster collaboration and share information and ideas and to promote the subject and the Institution.
7. Contribute to the enhancement of research quality and thinking in the field by being involved in quality assurance and other external decision making bodies.
8. Lead the development of new and creative approaches in responding to research challenges.
9. Plan and implement research projects and monitor progress to ensure the achievement of financial and research objectives.

### **Communication, Administration and Management**

1. Be routinely involved in complex and important negotiations internally and with external bodies, particularly in relation to research, research funding and consultancy.
2. Participate in Institutional decision making and governance.
3. Participate in internal and external networks in relation to research and research funding.
4. Promote and market the work of the School in the subject area both nationally and internationally.
5. Exercise academic leadership for all subject area activities - teaching and/or research, as appropriate.
6. Act as line manager for matters relating to the employment of staff and ensuring the work is allocated fairly, according to skills and capacity.
7. Carry out the role of an Academic Lead i.e. sustaining a shared sense of direction for the discipline and a shared participation in the University and Colleges' success through engagement with University and College strategies ensuring decisions are taken forward effectively by all staff they lead enabling, supporting and celebrating individual achievement.
8. Appraise and advise staff on personal and career development plans and mentor research activity within the discipline/College.
9. Develop and communicate a clear vision of the unit's strategic direction.
10. Promote a collegiate approach and develop team spirit and team coherence.
11. Foster inter-disciplinary team working.
12. Determine the allocation of resources within own area of responsibility.
13. Take overall responsibility for the organising and deployment of resources within own areas of responsibility.

### **Expertise**

1. Be a leading international authority in the subject.
2. Possess in depth knowledge of specialism to enable the development of new knowledge, innovation and understanding in the field.
3. Teamwork skills to work in collaboration with existing group members
4. An active and supportive approach to inter-disciplinary and multi-disciplinary research that will help to foster interactions and links both within the University and externally
5. The attitude and ability to engage in continuous professional development
6. The aptitude to develop familiarity with a variety of strategies to promote and assess learning
7. Enthusiasm for delivering undergraduate and postgraduate programmes
8. Proven academic leadership skills or a potential to take on leadership roles
9. Be an externally recognised authority in the broader subject area.
