

## THE POST

<b>College:</b>	<b>University of Exeter Business School, Department of Economics</b>
<b>Post:</b>	<b>Senior Lecturer (Education and Research) in Environmental Economics</b>
<b>Reference No:</b>	<b>P01281</b>
<b>Grade:</b>	<b>G</b>
<b>Reporting To:</b>	Head of Economics

### Job Description

The full job description (role profile) for Senior Lecturer (Education and Research) posts can be found on our website at [http://admin.exeter.ac.uk/personnel/academic\\_paths/academic\\_paths\\_tandr.shtml](http://admin.exeter.ac.uk/personnel/academic_paths/academic_paths_tandr.shtml). This summarises the main duties and accountabilities of the post and is not comprehensive: the post-holder may be required to undertake other duties of similar level and responsibility.

### Main purpose of the job:

- To fulfil research, teaching and administration duties as a Senior Lecturer in Environmental Economics.
- To extend the research profile of Environmental Economics and related areas. Empirical applications of interest include links between economics of the environment and natural capital, agriculture, development, health and resources as well as related economics valuation and behavioural analysis.
- To contribute to extending the research and learning and teaching profile of the Department of Economics at the University of Exeter
- To contribute to the excellence of the College as a member of its academic team.

### Research

To contribute to enhancing the quality and quantity of Environmental Economics research at Exeter in an area related or complementary to existing research strengths with an emphasis on empirical research.

To conduct independent research and act as principal investigator and project leader, and in so doing:

- Enhance the College's international reputation through research publications of appropriate quantity and quality, and contribute to worldwide debate at national and international conferences, and
- Win research earnings through carefully prepared and successful grant applications as well as identifying potential income-generating programmes and collaborative partnerships.

To supervise research projects, managing any dedicated research staff and postgraduate research students.

To help promote a collegiate working atmosphere and stimulating environment that will attract further research staff of the highest quality as well as good postgraduate research students.

To contribute to the further and ongoing development of Environmental Economics research at Exeter, especially in the area of sustainability.

### Teaching

To develop and deliver undergraduate courses to appropriate academic standards such that:

- Knowledge acquired from research translates to teaching
- Accreditation by professional bodies is obtained where appropriate
- Students are challenged but also tutored and supported with individual care
- Teaching and learning techniques are innovative and inspiring
- Students are supervised appropriately

- Assessment criteria are appropriate, and fairly Environmental with results fed back to students appropriately
- Module content is continuously reviewed to identify areas for improvement

### **General**

To contribute to the overall general and academic management in the College by undertaking activities that may be required such as:

- Developing overall academic content and structure of modules with colleagues
- Developing ideas for generating income
- Supporting admissions processes and procedures
- Supporting examinations processes and procedures
- Contributing to the work of College committees
- Contributing to accreditation and quality control processes

### **Person Specification for Senior Lecturer**

The successful applicant will have an independent, internationally-recognised research programme in an active field of Environmental Economics research related or complementary to existing Exeter strengths. He/she will be able to demonstrate the following qualities and characteristics:

- A PhD or equivalent qualification/experience in the subject or a closely related discipline
- A strong record in attracting research funding, or demonstrable potential to attract such funding
- Teamwork skills to work in collaboration with existing group members
- An active and supportive approach to inter-disciplinary and multi-disciplinary research that will help to foster interactions and links both within the University and externally
- The attitude and ability to engage in continuous professional development
- The aptitude to develop familiarity with a variety of strategies to promote and assess learning
- Enthusiasm for delivering undergraduate and postgraduate programmes
- A strong record of research grant capture
- Potential to take on academic leadership roles
- Be an externally recognised authority in the broader subject area.
