

## THE POST

<b>College:</b>	<b>University of Exeter Medical School</b>
<b>Post:</b>	<b>Senior Lecturer (Education and Research) in Nursing</b>
<b>Reference No:</b>	<b>P537306</b>
<b>Grade:</b>	<b>Grade G</b>

The above full-time post is available from 23 October for the Academy of Nursing.

### Job Description

The full job description (role profile) for Senior Lecturer (Education and Research) posts can be found on our website at [http://admin.exeter.ac.uk/personnel/academic\\_paths/academic\\_paths\\_tandr.shtml](http://admin.exeter.ac.uk/personnel/academic_paths/academic_paths_tandr.shtml). This summarises the main duties and accountabilities of the post and is not comprehensive: the post-holder may be required to undertake other duties of similar level and responsibility.

### Main purpose of the job:

- To undertake all duties required to plan and deliver the new BSc, including liaison with the local health community to ensure clinical placements are available and suitable for learning.
- Liaison with the professional regulator, the Nursing and Midwifery Council, for accreditation of the programme.
- Using appropriate teaching, learning support and assessment methods, supervise student projects and the academic elements of field trips, and, where appropriate, placements.
- Identifying areas where current provision is in need of revision or improvement and contribute to the planning, design and development of objectives and material.
- Selecting appropriate assessment instruments and criteria, assess the work and progress of students by reference to the criteria and provide constructive feedback to students.
- Setting, marking and assessing work and examinations and provide feedback to students.
- Ensuring that module design and delivery comply with the quality standards and regulations of the University and College.
- To fulfil all other research, teaching and administration duties as a senior lecturer in nursing.
- To contribute to extending the research profile of the Academy, particularly in areas related or complementary to existing research activities
- To contribute to the general operation of the College as a member of its academic team.

### Research

To contribute to enhancing the quality and quantity of nursing research at Exeter in an area related or complementary to existing research strengths, including:

- fundamental nursing care,
- complex nursing interventions,
- comorbid physical and common mental health conditions and dementia.

To conduct independent research and act as principal investigator and project leader, and in so doing:

- Enhance the College's international reputation through research publications of appropriate quantity and quality, and contribute to worldwide debate at national and international conferences, and
- Win research earnings through carefully prepared and successful grant applications as well as identifying potential income-generating programmes and collaborative partnerships.

To supervise research projects, managing any dedicated research staff and postgraduate research students.

To help promote a collegiate working atmosphere and stimulating environment that will attract further research staff of the highest quality as well as good postgraduate research students.

To contribute to the further and ongoing development of nursing research at Exeter, especially in the area of sustainability.

### Teaching

To develop and deliver undergraduate courses to appropriate academic standards such that:

- Knowledge acquired from research translates to teaching
- Accreditation by professional bodies is obtained where appropriate
- Students are challenged but also tutored and supported with individual care
- Teaching and learning techniques are innovative and inspiring
- Students are supervised appropriately
- Assessment criteria are appropriate, and fairly applied with results fed back to students appropriately
- Module content is continuously reviewed to identify areas for improvement

### General

To contribute to the overall general and academic management in the College by undertaking activities that may be required such as:

- Developing overall academic content and structure of modules with colleagues
- Developing ideas for generating income
- Supporting admissions processes and procedures
- Supporting examinations processes and procedures
- Contributing to the work of College committees
- Contributing to accreditation and quality control processes

### **Person Specification for Senior Lecturer**

The successful applicant will have an independent, internationally-recognised research programme in an active field of nursing research related or complementary to existing Exeter strengths. He/she will be able to demonstrate the following qualities and characteristics:

- A PhD or equivalent qualification/experience in the subject or a closely related discipline
- A strong record in attracting research funding, or demonstrable potential to attract such funding
- Current registration with the NMC as an Adult field nurse registration
- Teaching qualification which is recognised with the NMC
- Teamwork skills to work in collaboration with existing group members
- An active and supportive approach to inter-disciplinary and multi-disciplinary research that will help to foster interactions and links both within the University and externally
- The attitude and ability to engage in continuous professional development
- The aptitude to develop familiarity with a variety of strategies to promote and assess learning
- Enthusiasm for delivering undergraduate and postgraduate programmes
- Proven academic leadership skills
- Be an externally recognised authority in the broader subject area.

### **Informal Enquiries**

Before submitting an application you may wish to discuss the post further by contacting Professor David Richards, telephone (01392 724615) or email [d.a.richards@exeter.ac.uk](mailto:d.a.richards@exeter.ac.uk).
