

THE POST

College/Service: University of Exeter Medical School
Post: Lecturer (Education and Research) in Nursing
Reference No: P57306L
Grade: F

The above full time post is available from 23 October in the Medical School.

Main purpose of the job:

You will have responsibility for the design, development and production of teaching and learning material and deliver either across a range of modules or within a subject area. You will work with academic colleagues to ensure the efficient and effective delivery of teaching programmes in accord with the College's education strategy and implementing the External Affairs strategy. You will also contribute to the development and implementation of innovative teaching practices across the College.

Job Description

Main duties and accountabilities

1. All duties required to plan and deliver the new BSc, including liaison with the local health community to ensure clinical placements are available and suitable for learning.
2. To fulfil research, teaching and administration duties as a lecturer in Nursing.
3. To extend the research profile and related areas, especially in the area of learning, attracting and supervising postdoctorate researchers and postgraduate research students.
4. To collaborate with colleagues both within the College and the University of Exeter as a whole in order to develop and support the Medical School's research programmes in Nursing and the College's research programme.
5. To contribute to the general operation of the College as a member of its academic team.

Research

1. To conduct independent research and act as principal investigator and project leader, and in so doing:
 - Enhance the College's international reputation through research publications of appropriate quantity and quality, and contribute to worldwide debate at national and international conferences, and
 - Win research earnings through carefully prepared and successful grant applications as well as identifying potential income-generating programmes and collaborative partnerships.

2. To supervise research projects, managing any dedicated research staff and postgraduate research students, and provide the mentorship to enable staff and students to develop their skills and academic careers.
3. To help promote a collegiate working atmosphere and stimulating environment that will attract further research staff of the highest quality as well as good postgraduate research students.
4. To contribute to the further and ongoing development of Nursing research at Exeter, especially the area of fundamental nursing care, complex nursing interventions, and comorbid physical and common mental health conditions and dementia.

Teaching

To deliver mainly undergraduate courses to appropriate academic standards such that:

1. Knowledge acquired from research translates to teaching
2. Students are challenged but also tutored and supported with individual care
3. Teaching and learning techniques are innovative and inspiring
4. Students are supervised appropriately
5. Assessment criteria are appropriate, and fairly applied with results fed back to students appropriately
6. Module content is continuously reviewed to identify areas for improvement

General

To contribute to the overall general and academic management in the College by undertaking activities that may be required such as:

1. Developing overall academic content and structure of modules with colleagues
2. Developing ideas for generating income and promoting both the College in general and the Medical School
3. Supporting admissions processes and procedures
4. Supporting examinations processes and procedures
5. Contributing to the work of College committees
6. Contributing to accreditation and quality control processes
7. Contributing to strategic planning

This job description summarises the main duties and accountabilities of the post and is not comprehensive: the post-holder may be required to undertake other duties of similar level and responsibility.

Person Specification

The successful applicant will have an independent research programme that will strengthen and complement the existing team at the University. As well as this he/she will be able to demonstrate the following qualities and characteristics:

1. PhD (Optional or nearing completion) or equivalent in Nursing or a closely related area
2. Current registration as an adult field nurse with the NMC
3. A teaching qualification which is recognisable by the NMC
4. Sufficient knowledge to develop teaching and research programmes
5. A strong record in attracting research funding, or demonstrable potential to attract such funding.
6. Teamwork skills to work in collaboration with existing group members
7. An active and supportive approach to inter-disciplinary and multi-disciplinary research that will help to foster interactions and links both within the University and externally

8. The attitude and ability to engage in continuous professional development
9. The aptitude to develop familiarity with a variety of strategies to promote and assess learning
10. Enthusiasm for delivering undergraduate programmes

Informal Enquiries

Before submitting an application you may wish to discuss the post further by contacting Professor David Richards, e-mail D.A.Richards@ex.ac.uk or telephone (01392) 724615.
