

THE POST

College:	Engineering, Mathematics and Physical Science
Post:	Postdoctoral Research Associate
Reference No:	P62472
Grade:	E
Reporting To:	Feodor Ogrin

The above full-time post is available 1st October 2018 to 30th April 2019 in the College of Engineering, Mathematics and Physical Sciences.

Job Description

Main purpose of the job

The College wishes to recruit Research Associate to work on a joint EU HORIZON2020 research project "Magnetically actuated bio-inspired metamaterials (ABIOMATER)" (http://cordis.europa.eu/project/rcn/196975_en.html) in support of Prof F Y Ogrin and the team of collaborators.

Main duties and accountabilities:

1. To undertake research as appropriate to the field of study including:
 - Writing up research work for publication;
 - Developing research objectives and proposals for own or joint research;
 - Making presentations at national and international conferences and similar events;
 - Dealing with problems which may affect the achievement of research objectives and deadlines;
 - Analysing and interpreting the results of own research and generating original ideas based on outcomes;
 - Using new research techniques and methods;
 - Using initiative and creativity to identify areas for research, developing new research methods and extending the research portfolio;
 - Using creativity to analyse and interpret research data and draw conclusions on the outcomes.
2. To contribute to teaching and to be involved in the assessment of student knowledge including assisting in the supervision of student projects and in the development of student research skills.
3. To work in collaboration with colleagues as appropriate to the field of study including:
 - Contributing to collaborative decision making within the research group;
 - Contributing to the production of collaborative research reports and publications.
 - Preparing papers and presenting information on research progress and outcomes to bodies supervising research, e.g. steering groups.
4. To communicate complex information, orally, in writing and electronically.
5. To prepare proposals and applications to external bodies, e.g. for funding and contractual purposes
6. To contribute to the planning of research projects.

7. To use research resources, laboratories and workshops as appropriate and to take responsibility for reducing hazards and for the health and safety of others. Where appropriate, will also be responsible for conducting risk assessments.
8. To monitor research budgets as appropriate.
9. To engage in continuous professional development and to be responsible for continually updating knowledge and understanding in field of study or specialism and for developing skills.

This job description summarises the main duties and accountabilities of the post and is not comprehensive: the post-holder may be required to undertake other duties of similar level and responsibility. Please visit the Human Resources website to view the Research Fellow role profiles.

Person Specification

Competency	Essential	Desirable
Attainments/Qualifications	PhD (OPTIONAL or nearing completion) or equivalent qualification/experience in a related field of study.	
Skills and Understanding	Sufficient knowledge in the discipline and of research methods and techniques to work within established research programmes.	<p>Previous experience in fabrication techniques, including: photo or electron-beam lithography (EBL); Focused Ion Beam (FIB); metal deposition techniques.</p> <p>Knowledge of MATLAB in data processing and numerical simulations using OOMMF and Mumax3.</p> <p>General knowledge of magnetic materials and soft matter.</p> <p>Evidence of research activity and published research.</p>
Prior Experience	Understanding of health and safety legislation	<p>Experience of work in clean-room environment, use of chemicals and related techniques for sample preparation and their analysis.</p> <p>Experience of work with optical microscopy and data processing based on the performed analysis.</p> <p>Experience of undergraduate teaching</p>
Behavioural Characteristics	<p>Excellent written and verbal communication skills.</p> <p>Able to communicate material of a specialist or highly technical nature.</p> <p>Able to manage research and administrative activities and to balance the competing pressures of research and administrative demands and deadlines.</p> <p>Able to liaise with colleagues and students.</p> <p>Able to build contacts and participate in internal and external networks for the exchange of information and collaboration.</p> <p>Able to identify potential sources</p>	

	of funding. Actively participate as a member of a research team Engage in continuous professional development. Understand equal opportunity issues as they may impact on areas of research content Where appropriate to the role, willingness to undergo training in order to conduct risk assessments	
Circumstances	Willing to work flexibly to achieve project demands	

Informal Enquiries

Before submitting an application you may wish to discuss the post further by contacting Prof Feodor Ogrin, telephone (01392 724 116) or email f.y.ogrin@exeter.ac.uk.
