

THE POST

College:	Business School
Post:	Postdoctoral Research Associate
Reference No:	P68984
Grade:	E26
HERA:	ARF
Reporting To:	Peter Hopkinson

Responsible For:

The above part-time post (0.25 FTE) is available immediately until 30th June 2020 in the University Of Exeter Business School.

Job Description

Main purpose of the job:

This **Associate Research Fellow in Marine Plastic Pollution** position will support the EPSRC funded project **Exemplar: The Exeter Multidisciplinary Plastics Research Hub**. Exemplar is funded by EPSRC to lead Creative Circular Economy Approaches to Eliminate Plastics Waste. The aim of Exemplar is to establish a systemic approach to forming a creative circular economy for plastics, using the South West of England as a regional demonstrator.

As part of this, the ARF will work to gather the evidence base describing the impacts of plastics in the environment and the role of citizen engagement. The results will be used to demonstrate the technical feasibility and economic, material, health, environmental and social value of a circular economy system re-design against a current linear base case.

Main duties and accountabilities:

1. To undertake research as appropriate to the field of study including:
 - Writing up research work for publication;
 - Developing research objectives and proposals for own or joint research;
 - Making presentations at national and international conferences and similar events;
 - Dealing with problems which may affect the achievement of research objectives and deadlines;
 - Analysing and interpreting the results of own research and generating original ideas based on outcomes;
 - Using new research techniques and methods;
 - Using initiative and creativity to identify areas for research, developing new research methods and extending the research portfolio;
 - Using creativity to analyse and interpret research data and draw conclusions on the outcomes.
2. To contribute to teaching and to be involved in the assessment of student knowledge including assisting in the supervision of student projects and in the development of student research skills.
3. To work in collaboration with colleagues as appropriate to the field of study including:
 - Contributing to collaborative decision making within the research group;
 - Contributing to the production of collaborative research reports and publications.

- Preparing papers and presenting information on research progress and outcomes to bodies supervising research, e.g. steering groups.
4. To communicate complex information, orally, in writing and electronically.
 5. To prepare proposals and applications to external bodies, e.g. for funding and contractual purposes
 6. To contribute to the planning of research projects.
 7. To use research resources, laboratories and workshops as appropriate and to take responsibility for reducing hazards and for the health and safety of others. Where appropriate, will also be responsible for conducting risk assessments.
 8. To monitor research budgets as appropriate.
 9. To engage in continuous professional development and to be responsible for continually updating knowledge and understanding in field of study or specialism and for developing skills.

This job description summarises the main duties and accountabilities of the post and is not comprehensive: the post-holder may be required to undertake other duties of similar level and responsibility. Please visit the Human Resources website to view the Research Fellow role profiles.
